

**GLACIER 3000**

*High level experience.*

Gstaad 3000 SA – News for the medias

**Glacier 3000 is excited to host the first round of the 2019 Red Bull Gondeli!**

Last year's event, which occurred during the snowfall night of the 30th March, was an incredible hit not only for Red Bull and Glacier 3000 guests, but more importantly for everyone involved.

This year's edition will take place on Saturday, the 20th July 2019, which will include the rapper, singer, freestyler and actor KT Gorique and the international singer Kelvyn Colt.

Since the age of 11, KT Gorique has always been in the music business but truly came out in her appearance as an actor in the film "Brooklyn" where she played the principal role. Yet in 2016 she brought out her first album where the Swiss had the chance to present her talent.

Kelvyn Colt lived an international life by growing up in Germany but packing his bag for New York City at the age of 17. He found his way towards the music world through poetry. By expressing his emotions of solitude, depressions and other problems, he found relief.

Both artists will be presenting their music in one of the most unique setting one can experience: in the moving gondolas of Glacier 3000.

To participate in this exclusive event, tickets can not be purchased, only through entering the competition of Red Bull: [www.redbull.ch/gondeli](http://www.redbull.ch/gondeli).

Next stops on the Gondeli Tour will be host on the 14th September in the Schilthorn gondolas and on the 14th December in Andermatt.
